

## FE-B4

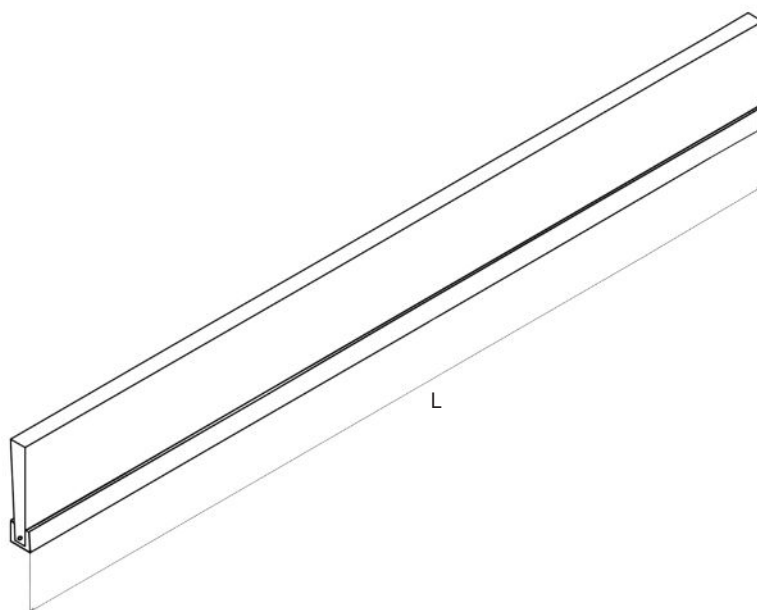

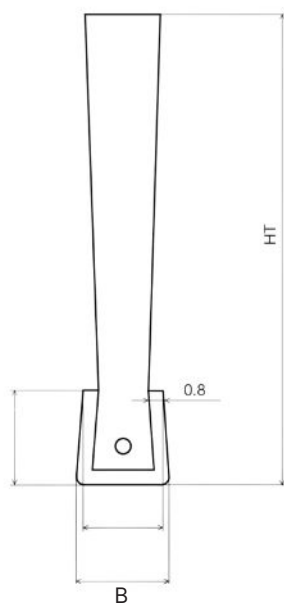

SIAT Strip Brushes are high-performance dynamic sealing systems designed to offer effective protection from drafts, dust, light, water and intrusion. Consisting of independent bristles fixed on an electro-galvanised steel base, these brushes guarantee excellent adaptability even on uneven surfaces or those subject to movement.

**APPLICATIONS:** Dust barriers, draughts, automatic cleaning systems, splinter protection, thermal insulation, acoustics.

### On stock:

Art.	Base	L(mm)	HT(mm)	Material	Pcs per Box
FE-B4HT15	B4	2500	15	PP	100
FE-B4HT20	B4	2500	20	PP	100
FE-B4HT25	B4	2500	25	PP	100
FE-B4HT30	B4	2500	30	PP	100

B - Base (electrogalvanised steel)	4, 5, 8, 10
L - Length (standard 2500mm)	CUSTOM
HT - Total height	CUSTOM
Bristle material (standard PP)	PA, BRASS, STEEL, NATURAL
